4. ICT/ Computing Skills

ICT/ Computing Skills

In alignment with its commitment to holistic development, the institution has prioritized a comprehensive range of Capacity Building and Skill Enhancement initiatives. Information and Communication Technology (ICT) and Computing skills are integral components of our institution's curriculum, designed to equip students with the necessary tools to excel in the digital age. Our programs emphasize hands-on experience in areas such as programming, machine learning, cybersecurity, the use of modern software applications. By fostering these skills, we ensure our graduates are well-prepared to meet the evolving demands of the global workforce and contribute meaningfully to technological innovation.
