### Basis of java and object oriented programming

The department of Computer Science and Engineering conducted a two-day workshop on Basics of Java And Object Oriented Programming in association with Continuing education cell on 03/10/2023 and 04/10/2023 in SDPK Lab, CSE Block. The beneficiaries were S3 CSE students. The session was conducted by Mr. Vishnu V Nair Senior Java Trainer, Kompetenzen Technologies. It was from 9.00 am to 4.00 pm. It aimed to provide participants with a comprehensive introduction to Java programming. The event was designed for beginners and intermediate-level programmers who wanted to learn or enhance their Java programming skills. The session conducted hands-on exercises to ensure participants grasped the concepts effectively. The session was presided by DR. S. V. Annlin Jeba, HOD, CSE and S3 faculty advisor Dr Anju J Prakash, Ms Athira Sankar, Ms Aswathy T, Ms Nineesha P. At the end of each day, feedback sessions were conducted to gather participants' opinions and address any questions or concerns. The participants expressed their satisfaction with the content and the way it was delivered by the instructor. The students gave very good feedback on this session.

### RECENT TRENDS IN VLSI DESIGN - INDUSTRY PERSPECTIVE

Department of Electronics and Communication, Sree Buddha College of Engineering, Pattoor, Alappuzha, Kerala organized an Online Webinar "**RECENT TRENDS IN VLSI DESIGN - INDUSTRY PERSPECTIVE**" on 9th September 2023. The session was handled by Dr. Prameela B., Sr. Staff Engineer, Silizium Circuits Pvt. Ltd., FabCI, IIT Hyderabad. The welcome speech was done by Professor Pavitha P.P., HOD, ECE and vote of thanks by student coordinator Bhagya Saimol. The program was coordinated by Ambika Sekhar, Assistant Professor, Dept. of ECE. Around 50 participants attended the session. The webinar provided UG and PG scholars an idea about industry perspective in field of VLSI. The webinar came to end by 7:00 pm.

### WORKSHOP ON “MIX DESIGN”

Department Civil Engineering in association with ASCE organized a one-day workshop on Mix Design on February 14, 2023. Dr. Ramaswamy K P, Assistant Professor in Civil department, TKM College of Engineering, Kollam was the guest speaker. The workshop was attended by nearly 60 students including PG and eighth semester students in the presence of Dr. Gouri Antherjanam (HOD).

Ms. Shobha Elizabeth Thomas, PG coordinator, welcomed the gathering. The workshop focused on designing the mix of normal and self-compacting concrete using the latest IS codes. The speaker also talked about the mix design of fiber reinforced concrete. The workshop also provided the students to design the mix and an experience of practically making the mix in concrete lab. The speaker also extended his willingness to help the students to clear the queries. The students were so fortunate to hear from the resource person. The session ended by 4.15 pm.

## **FPGA Digital System Design**

The Department of Electronics & Communication Engineering at Sree Buddha College of Engineering, Pattoor organized a one day hands-on Workshop on FPGA Digital System Design (Simulation & Implementation on Spartan 3)" on 14/10/2022 for students of 7th semester ECE and Faculty of ECE. The main objective of this Workshop was to introduce the participants to Basic Verilog programming & implementation on Spartan 3 Xilinx board.

In the beginning students were introduced to Basic verilog coding types and simulation using ISE web pack 14.1. Later they were introduced to a hands-on session for FPGA implementation using a Spartan 3 board from Xilinx. During the tenure of this workshop. students were able to simulate and implement basic logic gates to various combinational logics. They were also able to write verilog codes in all the three types of coding styles.which includes Structural modeling, Dataflow Modeling and Behavioral Modeling.The session ended up with feedback from Students.

#### **Make your own robot**

The one day hands on workshop on "make your own robot" machine learning based robotics was managed by open leaves, a start up who are the alumnis of Sree Buddha College of Engineering, conducted by Department of Electronics & Communication in association with Institution's Innovation Council (IIC) & Innovation Entrepreneurship Development Centre (IEDC). The program was held at SDPK Seminar hall on 5th April 2023 at 9 A.M.

The program started with a prayer song followed by a speech by Prof. Pavitha P P (HOD of ECE). Later, Mr. Arun Raj & Mr. Arun Thampi, Founders of the Start up Open Leaves with Mr. Milan george started an interactive session with students where they learned about the basic machine learning based programming and a hands on session on making there own robot with hand gesture controlling.

The program was sponsored by Innovation Entrepreneurship Development Centre ( IEDC ).The workshop was really interactive and students were enthusiastic to learn about robotics and artificial intelligence. The students interacted with the guests and cleared their doubts There was a total of 43 students from different departments and semesters. Students from other colleges were also present. The program ended with vote of thanks by Mr Hari S. (Assistant professor, ECE)

## **REVIT ARCHITECTURE AND 3DS MAX – An Introduction to Modelling softwares**

Department of Civil Engineering organized a two day hands-on workshop on Revit Architecture and 3DS Max - An introduction to modelling softwares on 25<sup>th</sup> and 26<sup>th</sup> November 2021 in association with Innovation and Entrepreneurship Development Centre, SBCE and ED cell. The workshop was arranged in association with Habilete Learning Solutions and CADPOINT, Kollam. Habilete Learning Solutions are specialized in skill development trainings that are a prerequisite for the current innovative job market. 30 students of fifth semester attended the workshop.

The workshop started with an introduction by Dr. Gouri Antherjanam about modelling softwares and Habilete Learning Solutions. Later Dr. Kishore, M.D. of Habilete Learning solutions also briefed about the activities of the company. Resource person Mr. Varun, took over the class and introduced Revit Architecture software to students.

In day 1 session on Revit Architecture, the topics covered were familiarization of basic modelling tools in Revit, Familiarization of material creation, Creation of a residential building etc. Students were also made to do a sample model in Revit. Day two sessions was on 3DS Max software. It also covered familiarization of basic modelling tools in 3DS Max, Familiarization of material creation, Creation of a residential building etc. Students were also made to do a sample model in 3DS Max. Workshop coordinator was Ms. Regi P. Mohan, Assistant professor and Nodal officer of IEDC. Attendance and Feedback were collected from the participants on each session. The workshop timing was from 9.30am - 4.00 pm and was conducted in CACE Lab of Civil department. E-Certificates were distributed to participants.

## **Report on Activity 1**

The two-day workshop on "Arduino Programming" was conducted with the sole intention of promoting the microcontroller programming skills among the students of all semesters to help them out with their mini projects and final year projects. The objective was to introduce the basic Arduino programming from scratch, to understand without any prior knowledge in the programming domain. The course scheduled over 5 hours was distributed equally over two days, 28/11/2020 and 5/12/2020. Day one mainly intended the introduction of the Arduino Uno development board and Basic programming skills. Day 2 dealt with basic programming using Arduino Uno, like led blinking, PWM, Sensor interfacing, Oled display interfacing, DC motor interfacing, Bluetooth connectivity, etc. The afternoon session concentrated on basic project building concepts along with actual projects. These two days witnessed active participation from students and faculty within and outside.

**Date of the event** : 27<sup>th</sup> May 2020, 11:00 am to 12:30 pm

**Conducted by** : Ms. Meera G. Mohan

Ms.Meera.G.Mohan, Assistant Professor, Department of Civil Engineering organized a webinar on the topic “Sludge Treatment and Disposal” on 27<sup>th</sup> May 2020 from 11:00 am to 12:30 pm on Cisco webex platform. The webinar was based on the 6th Module of the Course: CE402 - Environmental Engineering II as per APJ Abdul Kalam Technological University (KTU). Around 60 participants attended the webinar, majority being students from various engineering colleges all over Kerala. There were also representatives from other institutions and industries. They raised questions on practical applications which improved the overall webinar experience. In addition to covering theory topics over webinar, design problems were shared with the participants in the form of my recorded video via Google drive due to the limited time. The feedbacks from the participants were motivating and they found the session to be very interesting.

The poster is divided into two main sections. The left section, on a blue background, provides registration details: Meeting Platform: Cisco webex (with logo), Date & Time: 27 MAY 2020, 11:00 AM - 12:30 PM, Free Registration for all, Last Date of Registration: 25/05/2020 (05:00 PM), For Registration: Visit the link below, <https://forms.gle/7qxbxS3Afo2ewE3Q7>, OR Scan the QR code (with QR code). The right section, on a white background, features the college logo, SREE BUDDHA COLLEGE OF ENGINEERING PATTOOR ALAPPUZHA, KERALA, accreditation logos (NEA, NAC), the title WEBINAR ON SLUDGE TREATMENT AND DISPOSAL Course - CE402: Environmental Engineering II (Module VI), an illustration of a wastewater treatment plant, and the speaker information: Speaker: Ms. Meera G Mohan, Assistant Professor, Department of Civil Engineering.

## Criterion 2

### 2.3 Teaching – Learning Process

Established in 2002

Approved by AICTE and Affiliated to APJAK Technological University

# SREE BUDDHA COLLEGE OF ENGINEERING, PATTOOR (Autonomous from AY 2024-2025)

**2 SLUDGE DIGESTION**

**Stages of Sludge Digestion Process**

- STAGE - 1: Acid fermentation stage
- STAGE - 2: Acid regression stage
- STAGE - 3: Alkaline fermentation stage

Acidic pH Alkaline

Prepared by: Meera. G. Mohan, Asst. Prof., Civil dept., SBCE, Pattoor

**2 SLUDGE DIGESTION TANK**

**Types of digesters**

- Conventional / low rate digester
  - Single stage digester
  - Two-stage digester
- High rate digester

Prepared by: Meera. G. Mohan, Asst. Prof., Civil dept., SBCE, Pattoor

## Criterion 2

### 2.3 Teaching – Learning Process

Established in 2002

Approved by AICTE and Affiliated to APJAK Technological University

# SREE BUDDHA COLLEGE OF ENGINEERING, PATTOOR (Autonomous from AY 2024-2025)

**2 SLUDGE DIGESTION TANK**

**2. High rate digester**

- Solids loading rate is much greater.
- The sludge is more or less continuously added
- It is vigorously mixed either mechanically or recirculating a portion of the digestion gases through a compressor.
- The sludge is intimately mixed and heated to obtain optimum digestion rates.

*Prepared by: Meera. G. Mohan, Asst. Prof., Civil dept., SBCE, Pattoor*

Participants (5/9): Meera Mohan (Host), ACER, Achu, Admin, Akhila, akshayaamal11@gmail.com, alisha moni, Amal, Anakhasree J.

Chat: yes, From Meera Mohan to everyone: 11:17 AM, Now?, from Edain Thomas to everyone: 11:17 AM, yes miss

## Report on Activity 7

**Name of the event :** LEADING AND CONTROLLING

**Date of the event :** 27<sup>th</sup> May 2020, 11:00 am to 12:30 pm

Webinar was conducted by the Department of Civil Engineering to cater the students of Civil Engineering, Electrical Engineering, Computer science Engineering and Biotechnology. The webinar was taken by Assistant Professor Ms. Regi P. Mohan who essentially and effectively covered the theoretical portions from the sixth semester common course named 'Principles of Management'. It dealt with the managerial aspects of manager as a leader and a controller in an organisation. Almost 60 students from different Engineering colleges within the state attended the 1.30 hour session. After the webinar, a feedback from the students indicated that the session was very effective. The session was conducted on Cisco Webex platform. Resource material was also shared to the participants.
